Librarian's Report to the Trustees

Seventeen books were received from the State Aid Fund in March, 1934. In May we received an additional gift of five books.

In June Mr. Ernest Stone presented the Library with two books.

During the year Dr. William Bancroft Hill has sent twelve books in the Everyman's edition, and one book of his own authorship. Dr. Hill continues sending the Missionary Review of the World, a monthly magazine

Eighty books have been added to the Library, bought by the sub-committee from funds appropriated by the Town.

Many instructive and interesting pamphlets, catalogues and circulars come to the desk during the year.

It is the desire of the Librarian and of the Trustees to make the Library more useful to each member of the community.

The Library has borrowed from the Public Library Commission fifty books and has placed them in the school for the use of the children. These books will be exchanged for others as soon as read.

The Library has been extending its service to the community this Winter by having books at Church services, Ladies' Aid and Grange meetings for use under Library rules.

The Library has frequently borrowed non-fictional books, on request, from the State Library. It also has the privilege of borrowing for any individual so desiring them, books on the Grange and Church reading lists which are not available in our Library. Requests for books from the State Library may be made through your local librarian.

Respectfully submitted,

MRS. PEARL S. HEMINGWAY

Report of School Board

For the Fiscal Year Beginning July 1st, 1933, Ending
June 30th, 1934

To the Citizens of the Town of Temple:

The Board of Education of Temple respectfully submits its annual report with that of its Treasurer, Superintendent and Auditors.

We appreciate our good fortune in keeping Miss Helen Rideout as teacher in the Primary Room, and it was with sincere regret that we accepted the resignation of Mrs. Georgia M. Tuttle, who has served us so faithfully as teacher in the Grammar Room.

We feel that we are fortunate in securing Mrs. Adelaide C. Herrick, as teacher in the Grammar Room, who comes to us highly recommended, having had many years of successful teaching experience.

The co-operation of the citizens is greatly appreciated.

Report of Superintendent

To the School Board and Citizens of Temple:

I respectfully submit my twelfth annual report as your Superintendent of Schools.

The State Legislature of 1933 enacted a provision requiring the State Board of Education to reduce the number of supervisory unions in the state from the sixty existing at that time to fifty-five in 1933-1934 and to fifty for 1934-1935. This second reduction resulted in the addition of Frankestown and Greenfield to the six towns which formerly comprised Supervisory Union No. 63; Wilton, Greenville, Lyndeboro, Mason, New Ipswich, and Temple. The new towns add approximately one-hundred children and four teachers but the closing of two rural schools in Wilton leaves a net increase of only two teachers.

The Superintendent's time is not apportioned among the towns in the supervisory union by any fixed rule, but rather he is expected to give attention to each school according to its needs. It is too early to predict what the ultimate results of the change in this union may be, but it is apparent now that each school will receive less attention than formerly, not only because there are more schools to be visited in a given time, but also because the increase in administrative duties necessarily reduces time available for visiting.

We are using standardized tests:

A. To compare progress in the various schools with fair standards of accomplishment.

B. To discover general weaknesses where they may exist in any school and point the way to improving teaching at such weak points.

C. To assist the teachers in discovering the particular weaknesses and needs of the individual children and help direct their instruction throughout the year.

The tests used include the Stanford Achievement Test which covers nearly all of the subjects taught in Grades 3-8. This test is given every year in October and is repeated in May for children whose October scores in the test were low. In Grades 1-3 we use the Gray Oral Reading Check Tests at intervals of five or six weeks throughout the year. We have begun this year to use the Metropolitan Primary Reading Test also in Grades 1-3 and Metro-

politan Primary Arithmetic Test in Grades 2 and 3. These are given in January. All tests are given by the teachers, who follow very exact and minute directions in order that the tests may be given under uniform conditions in every school.

The form of report card was revised this year in order to provide for systematic reporting of each pupil's scores in the standardized tests, so as to give to parents a more complete picture of their children's success in school.

The annual medical inspection was made in September by Dr. Pease and Mrs. Cutter, the school nurse. They reported on examination of 40 pupils, with the following defects:—

	Defects	Corrected or under treatment
Underweight	5	1
Defective vision	5	1
Defective teeth	22	20
Diseased tonsils	2	1
Whooping cough	5	

The budget presented this year differs from that of one year ago in the following items:—The allowance for textbooks was reduced to a minimum and did not prove to be sufficient for actual needs this year. The sum estimated for high school tuition is \$200 higher because we expect there will be more attending high school next year. Insurance for three years falls due next year to the amount of \$98. State aid will be reduced from the amount received this year by \$168.76, reflecting the decreased cost throughout the state. We do not anticipate any extraordinary repairs, such as we have had this year, unless it should be thought best to cover the cement floor in the hallway between the two rooms and just inside the front entrance, and this proposal is embodied in a special article in the warrant and is not included in the budget.

Respectfully,
VERNON S. AMES
Superintendent of Schools
